### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a Paper No. 4 filed on 5/30/03.

The application has been amended as follows:

non-elected claims 16-20 are cancelled.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose all the combination of a semiconductor device structure recited in the base claims. For example, the prior art of record fails to suggest a strap portion terminating at a first power lead and connected to the first power electrode formed on a first major surface of a semiconductor die, wherein the control lead and the first power lead of the lead frame are coplanar and are exposed through a major surface of the molded housing and wherein the second power electrode is electrically connected through the major surface of the molded housing (claim 1); or the prior art of record fails to disclose a strap displaced out of the plane of the lead frame and extending across the nest to bridge two coplanar sides for positioning the semiconductor die in the nest, wherein the coplanar sides of the lead frame have bottom surfaces which are coplanar with the bottom surface of the semiconductor die and are flush or extend beyond a bottom surface of the housing (claim 13); or the prior art of record does not suggest a

strap including a first portion extending between a first power terminal and a second power terminal and terminating at a first external power lead, and electrically connected to the first power terminal disposed on a first major surface of a semiconductor die, wherein the first external power lead is exposed through the common major surface, and the second power terminal is electrically connectable through the common major surface (claim 21).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
